MASTER YOUR SPACE STYLE & TURN YOUR CHAOS TO ORDER

When you are in tune and living in your person space style, you're more productive and effective, giving you more time to focus on the things that are important. Your home and office then are a source of creativity rather than a source of distraction. This fast-start guide is designed to give you a general overview of your organizational personality - as determined by the results of the organizational personality quiz - as well as give you a few things to consider to match your personality to your personal style.

CHARACTERISTICS:

- Great trouble finding things and cleaning up
- Doesn't intend to hoard and save
- Other people complain about sloppiness
- Can look at a room and not see the clutter
- Avoids cleaning
- Picking up after yourself is unknown to you as you're used to others (i.e., your parents) picking up after you OR you had a very strict parent that expected perfectionism

MASTER YOUR SPACE STYLE & TURN YOUR CHAOS TO ORDER

FEARS:

- Conformity: they will be like others if organized
- Losing your “creative” label by being organized
- Authority and oppression, as someone in their past tried to control them (now they are rebelling)

PRODUCT CONSIDERATIONS:

- Create logical storage systems, such as placing your clothes hamper near spot where you normally undress
- Clear storage solutions to make contents easily viewable (e.g., a clear glass fishbowl - put day’s keys, change, watch, jewelry)

BEHAVIOR CHANGE:

- Probe motives for not being organized or even making it a priority
- Accept responsibility for yourself and your space
- Ease into the job: pick up only 12 things at a time
- Make getting organized as convenient and simple as possible
